

Apply for scholarships from the Oscar and Lili Lamm's Foundation

The Oscar and Lili Lamm's Foundation allocates each year a number of scholarships to students who are working with their master thesis.

Each scholarship (7 500 SEK) is personal and applied for by the person (student) who will perform the thesis. Applications must be within one of the areas given by the statutes of the foundation, i.e. landscaping, soil conservation, water conservation or plant protection. The application, submitted via the foundation's electronic application portal, must contain a clear budget and a timetable for the planned thesis.

In recent years, the number of submitted applications has been low, which is why the foundation would like to see more students apply for the scholarships.

The deadline for applications is October 1, 2017.

For detailed information, see <http://www.stiftelsenlamm.a.se> or contact the secretary of the foundation (see contact details below).
